

# BWTS UPGRADES

Let Goltens Solve Your Challenge

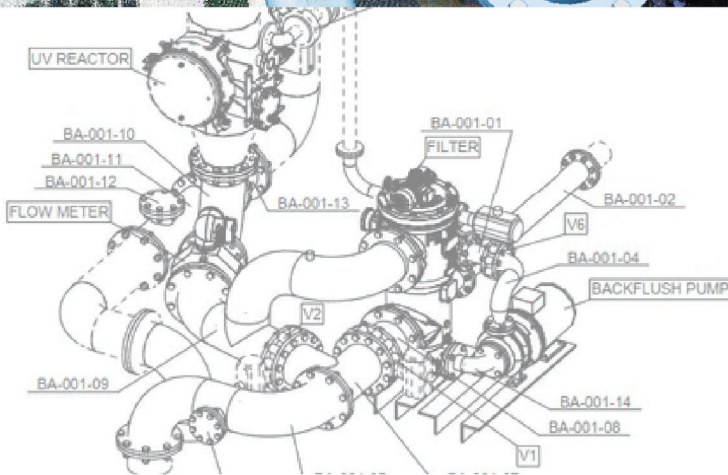

## BWTS UPGRADES, RECOMMISSIONING AND SERVICE

Encountering issues with older BWT systems on ships is not uncommon. Certain systems fail to meet the regulations set by the US Coast Guard or the International Maritime Organization (IMO).

In some cases systems fail to meet customer expectations or prove to be unreliable. When shipowners seek solutions, they may find that the manufacturer has gone out of business, making it challenging or impossible to maintain the system.

Goltens can assist to upgrade your BWT system to meet all your requirements and make it future prove.

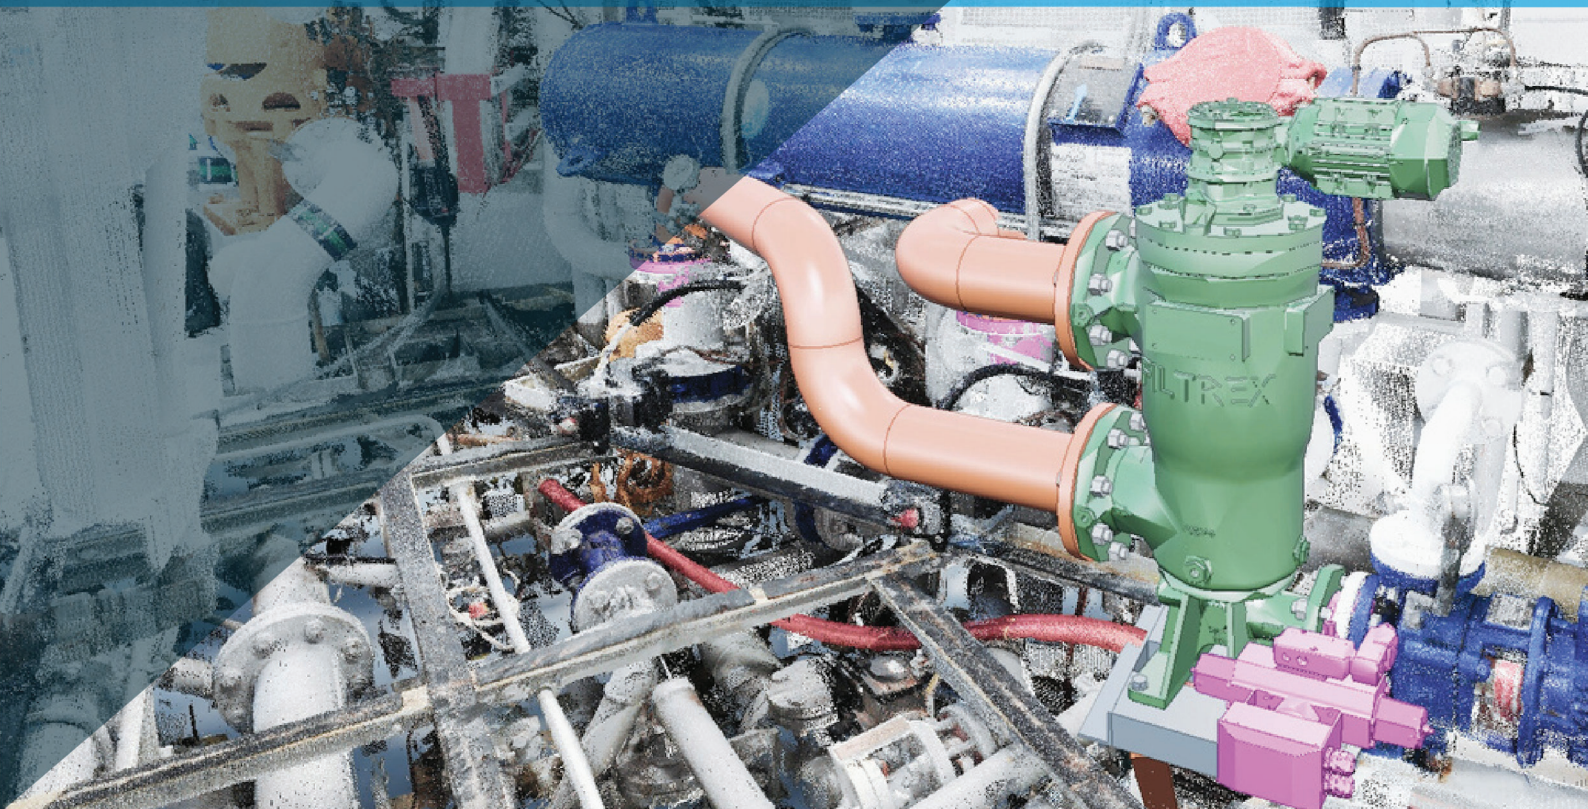

Explore our innovative  
**BWTS solutions.**

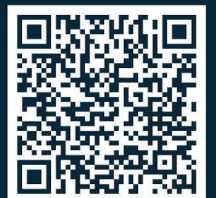

## UPGRADE SOLUTIONS:

Upgrade your existing Ballast Water Treatment (BWT) system with your preferred choice and benefit from a more reliable system, improved service, and cost savings in operations.
