

Goltens Dubai selected as distributor for Woodward products in Mideast and Africa

Press Release

23 September 2026

Dubai, UAE – Goltens Company Ltd, Dubai Branch has been selected as an authorized distributor for Woodward and Woodward L'Orange-branded products. Woodward is a global leader in controls solutions for aerospace and industrial applications, serving regions in the Middle East and Africa.

The agreement expands the long relationship between US-based Woodward, Inc and Goltens, combining Woodward's advanced fuel-injection technology with Goltens Dubai's extensive regional sales, engineering and service capabilities.

Goltens Dubai will provide customers with Woodward products, technical support, spare parts and aftermarket services for marine, power generation and industrial applications. The product portfolio includes fuel-injection systems and components for large diesel engines authorized for distribution under the agreement.

"Goltens has a long and successful history of supporting Woodward products and customers across the region," said **Sandeep Seth**, CEO of Goltens Worldwide.

"The addition of Woodward products to our portfolio further strengthens our ability to provide comprehensive engine and fuel-system support. By combining world-class technology with Goltens' regional infrastructure, technical expertise and responsive field service, we can deliver greater value throughout the equipment lifecycle."

Goltens Dubai provides specialized engine, controls, in-place machining and green-technology services to the marine, offshore, power generation and industrial sectors. Its experienced engineering and technical teams support customers throughout the Middle East and Africa from the company's facilities in the UAE and through Goltens' broader global service network.

"Goltens' strong presence, technical expertise and established customer relationships throughout the Middle East and Africa make them an ideal distributor," said Silvia Leuze, Regional Sales Manager for Woodward. "This agreement will provide customers across the

region with greater access to our fuel-injection technologies, supported by Goltens' responsive local sales, engineering and aftermarket service capabilities."

Woodward fuel-injection technology is engineered for large engines operating in demanding marine, power generation and industrial environments. Its solutions are designed to support efficient combustion, reliable engine performance and the evolving requirements associated with lower-emission and alternative fuels.

Customers will benefit from local access to product expertise, application support, spare parts and service resources. Goltens Dubai will support planned maintenance, troubleshooting and the replacement or modernization of existing fuel-injection components and systems.

"The partnership is a natural extension of Goltens Dubai's large-engine and controls capabilities," added Seth. "Our objective is to give customers a responsive regional resource for the supply and support of Woodward products. Our teams understand the importance of equipment reliability and rapid technical support in minimizing vessel and plant downtime."

In addition to countries within the Middle East, Goltens will also serve regions in Africa, including Angola, Botswana, Cabo Verde, Comoros, Djibouti, Eritrea, Ethiopia, Gambia, Ghana, Guinea, Kenya, Lesotho, Liberia, Libya, Madagascar, Malawi, Mauritius, Mozambique, Namibia, Nigeria, Rwanda, São Tomé and Príncipe, Seychelles, Somalia, South Africa, South Sudan, Sudan, Swaziland, Tanzania, Uganda, Zambia and Zimbabwe.

About Goltens

Goltens is truly global and a trusted partner of choice providing comprehensive engine and turbine services, bespoke in-place machining solutions, energy control solutions, afloat services and environmental and sustainability compliance solutions from 28 locations in 15 countries across the globe, serving more than 3,700 clients each year. <https://www.goltens.com/>
