

# Goltens

**Your Independent Service Partner**

**Goltens is a service organization that enables ship owners and power plant operators all over the world to minimize asset downtime.**

For over 75 years Goltens has been the alternative when the original equipment manufacturer is unable to meet the budget or the time frame available. Responding to customer needs year after year, we have added service locations and developed a range of services with a quality that is recognized globally as second to none.

As an engine specialist we service and repair a wide range of diesel and gas engines and related equipment. Through in place machining we eliminate downtime associated with the disassembly, transportation and reinstallation of machinery. To meet new environmental regulations we help plan and install green technology solutions that prolong the life-time of valuable assets.

Our customers see Goltens as a solution driven partner in avoiding revenue loss when the unexpected occurs. They know us as 1,200 skilled people in 15 countries dedicated to minimizing asset downtime.

Responding quickly to critical situations with services of predictably high quality has earned us a strong position with decision makers who focus on the value of uninterrupted operation. We work closely with leading equipment manufacturers. However, we are clearly independent to leave no doubt that our loyalty belongs to our customers.

## Presence

We are right where you need us

## Response

We're always geared up to respond

## Precision

We get it right the first time

## In-Situ Machining

Precision field repairs that minimize downtime

## Diesel Engines

Engine service second to none

## Green Technologies

Independent advice and coordinated implementation
